

## About Us

Phone # 954 920-9009

Fax # 954 920-6744

601 North 21st Ave, Hollywood FL 33020 Normal Store hours are: (call before you come - we are sometimes out of the store and closed)

Monday - Friday - 9:00 A.M. to 5:00 P.M.

Saturday - 12:00 P.M. to 5:00 P.M.

Sunday - Closed  
The Energy Store is a new concept of retail store (certainly the first of it's kind in South Florida) where consumers, businesses and contractors can shop for energy related items in a comfortable retail environment. We display a wide variety of energy-saving and renewable energy products for sale to people who are interested in saving energy, saving money and saving our environment.

We sell solar panels, chargers, inverters; incredibly efficient appliances like washers that use less than 2 cents of electricity; refrigerators and freezers that run on deep cell batteries and hot water heaters that are guaranteed for as long as you live in your home.

We have even built multiple roofs inside our store so you can see how the actual products work and look when installed. One roof is dedicated to Solar PV panels. We have even put three types of roofs (Standing Seam Metal, Shingle and Barrel Tile) so you can see how they are mounted on each style of roof. On the other roof we have two different types of Solar Hot Water Systems. (one open loop and one Closed loop. We also have Solatube 'daylighting' skylights and Solar Star attic fans mounted on that roof.

But we're not stuffy, we have lot's of really cool gadgets like LED flashlights; headlights, designer candles like you've never seen before; "eco Chic" tee-shirts that are clay-dyed and made of organic cotton and have clever sayings on them.

We sell the lighted moving water pictures and Chinese fiber- optic silk flowers that blink and bring you good luck.

You may have heard about those compact fluorescent light bulbs that save so much energy and reduce carbon

emissions....well...we make them!...and they are really good ones...and we are selling them at manufacturer's direct prices. That means you can get a Premium Quality lamp at about the same price as you would get from the mass retailers. Come see them demonstrated on our: "Lighting Enlightenment Board"

I've got to tell you about our Kipor generators. I know, they burn fossil fuels, but these are about as green as a generator can get . They are EPA certified and USDA approved and they are extremely quiet! Plus they are digital! They produce a perfect sign wave and are smart enough to rev-up in direct proportion to the load you put on it which makes them extremely fuel efficient and they are as rugged as they are smart.

We also sell Geneforce gas free power generators, that are perfect for condos and apartments, as well as single family homes. They are emergency power systems that provide you up to a weeks worth of electricity if you lose power. They just plug right into the wall and when the lights go off you just plug your stuff into the Geneforce.

Gosh, I'm just getting' started....sorry...well, just come on by or check out the site... Address & Phone Numbers...601 North 21 AvenueHollywood, FL 33020Phone: 954.920.9009Fax: 954.920.6744
