

Show Room

Sunday - Closed
The Energy Store is a new concept of retail store where consumers, businesses and contractors can shop for energy related products in a comfortable retail environment. We are located in Hollywood, Florida (between Miami & Fort Lauderdale). We are on Dixie Highway, just North of Hollywood Boulevard. (It's actually 21st Avenue which is the Northbound lane of Dixie, just on the East side of the railroad tracks.) For those of you who can't easily visit us, we have created this section for you to see what we're all about and what our store looks like. We have a wide variety of products in our showroom that range from solar panels, inverters and battery back-up systems; to generators, charge controllers and way cool LED flashlights; to beautiful designer candles that never burn out. We have "Eco Chic tee-shirts with slogans like, "One less car" on the back and a picture of a bicycle on the front. We also have great energy saving appliances, like solar powered refrigerators, highest rated non metallic hot water heaters with lifetime warranties, unique rotary washers that run on 2 cents of worth of electricity and less than 15 gallons of water, and even solar ovens.
