

Big Florida monopoly utilities are at it again - doing everything they can to block the sun.

Giving Floridians a Choice and a Voice on Energy in the Sunshine State

Big Florida monopoly utilities are at it again - doing everything they can to block the sun

Just two weeks ago, these fat cats reached into their bag of dirty tricks and used big money in an effort to confuse and distract voters from supporting solar choice. When pressed, Florida Power & Light (FPL) admitted its involvement in this latest trick to deny Floridians solar choice in the Sunshine State. They don't want change and will spend millions to stop us. But we can't let them continue to cloud out the sun. Monopoly utilities have big money, but we have PEOPLE power. It's likely you've signed the petition -- and we thank you for taking a stand! Now, can you help us get even more signed? Just \$3 will get us another signed solar petition. Every dollar we receive now will help to ensure that we all get a chance to vote for solar choice in November 2016. Help us fight back with a contribution of \$3 or more. Please take a few minutes to forward this email along to supportive friends and family so that we can continue to build our solar army. Remember, people power will trump the monopoly utilities.
